Words of Wisdom

I've always wanted to know...

THE BEST PLACE TO STORE MY SILICONE PROSTHESIS?

The best place to store your silicone prosthesis is in the box provided or another solid container of your choosing. The container should be stored in a drawer or a dark place with limited exposure to ultraviolet light. The prosthesis should be kept away from pets, children and sharp objects. The prosthesis should also be cleaned and dried thoroughly before storing.

The lion quickly pounced on the man reading the book and devoured him. Even the king of the jungle knows that readers digest and writers cramp.
